WHO ARE LITTLE STARS?

LITTLE STARS ARE KIDS WHO'S PARENTS INVEST ON THEIR BEHALF WHEN THEY ARE MINORS WHICH THEN HELPS THEM TAKE AN INTEREST AND LEARN ABOUT MONEY SO THAT THEY ATTAIN FINANCIAL FREEDOM AS THEY BECOME ADULTS

Advantages

1. **Hands-on Financial Education:** When investments are in your child's name, they naturally become curious about how money grows. This builds a strong foundation for financial literacy from an early age.
2. **Fostering Responsibility:** As their wealth grows, children develop a sense of ownership and learn to make thoughtful financial decisions.
3. **Harnessing Compounding Early:** Starting investments in their name allows funds to remain invested longer, maximizing the benefits of compounding over decades.
4. **Empowered Independence:** By the time they turn 18, they can access these funds to support their education, career, or passions—without burdening their parents financially.
5. **Lifelong Financial Bonding:** Discussing their investments together nurtures open conversations about money, ensuring the parent-child financial relationship strengthens as they grow.
